

ENVIROTHON

OHIO 2022

YOU ARE INVITED
to help make
environmental and
natural resources
education
accessible to all
students.

NCF-Envirothon Mission

To develop knowledgeable, skilled and dedicated citizens who have an understanding of natural resources and are willing and prepared to work towards achieving and maintaining a balance between the quality of life and the quality of the environment.

The NCF-Envirothon is an environmental and natural resource conservation **problem-solving, teambuilding and leadership experience** for high school students across the United States, Canada, and China. During the various levels of competition each year, this international program annually impacts over 500,000 individuals. Through hands-on outdoor field experiences, the Envirothon program fosters student learning in the areas of:

Since 1979 the NCF-Envirothon has grown to become the largest high school environmental education competition in North America and is managed and directed by the National Conservation Foundation, a 501©3 organization and supported by the National Association of Conservation Districts (NACD).

With the NCF-Envirothon, students are empowered to educate others, take action in their local communities and pursue careers in natural resources and conservation. Committed to fostering diversity and equity, the NCF-Envirothon strives to make environmental and natural resources education accessible to all students

FRIDAY, JULY 29, 2022

- ***Oral Presentations Day***
- ***Banquet, Awards and Closing Ceremony***

NATIONAL CONSERVATION FOUNDATION (NCF) ENVIROTHON— OHIO TO HOST

Students are challenged to develop critical thinking skills to create inventive solutions to the complex local and global environmental and natural resource issues facing our world today.

This international program is hosted by a different participating U.S. state or Canadian province each year. The 2022 NCF-Envirothon will bring together the top performing schools from these states, provinces and regions to compete for the Championship title right here in **OHIO**. Hundreds of students, teachers and volunteers from across the United States, Canada, and China will travel to Ohio to participate in this event for the opportunity to compete for recognition, scholarships and prizes.

The 2022 NCF-Envirothon competition will be held at Miami University, Oxford, Ohio from July 24 to July 29 and is being hosted by the Ohio Federation of Soil and Water Conservation Districts (OFSWCD) and the Ohio Envirothon State Committee (OEC).

The **OFSWCD** supports the work of Ohio's 88 Soil and Water Conservation Districts who for 75 year has been providing locally-driven solutions to natural resources concerns on both the rural and urban settings of the SWCD's various capacities.

The **OFSWCD** is the official sponsor of the Ohio Envirothon and together with the OEC has brought together educators from around the state and has selected **Waste to Resources** as this year's theme. This current environmental issue recognizes the urban-rural interface of our diverse state.

Sponsorship Opportunities

A Fund-Raising Campaign has been organized by the OFSWCD to generate partners and sponsorships. As a partner, you will support the delivery of a program that instills in students a greater understanding of our natural ecosystems and the role that they can play as champions of sustainability. **(see insert)**
