### Orals\* vs Final Orals\*\* and Total Scores

- During the preliminary Oral Presentation round, teams give a 20-minute presentation on a real-world scenario to a panel of judges for a score (Orals). This score is then added to scores from the 5 stations tests taken by the team. The combined total determines the top 3 overall scoring teams that advance on to the final Oral Presentation round of the competition.
- During the final Oral Presentation round, the top 3 teams re-present their Oral Presentation to a new panel of judges for a final Oral Presentation Score. Team placement for 1st, 2nd, and 3rd is determined by adding the five station test scores to the new final Oral Presentation score (Orals Final). The preliminary score is dropped and not used to determine team placement in the final round for the top three teams.
