QUICK TIPS

Sunscreen is a person's best friend. Make sure you stay safe out there!

HEY STUDENTS!

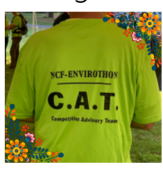

- PLEASE NOTE!!!!!!**
- TAKE YOUR WATER BOTTLE
- WEAR LONG PANTS AND CLOSED-TOED SHOES!
- THERE WILL BE NO CHAIRS ON-SITE, SO BRING A TOWEL OR BLANKET TO SIT ON!
- LEAVE ELECTRONICS AND WATCHES IN YOUR ROOM

ATTENTION ADVISORS!

Please make sure your team has the essentials for spending the day outdoors...rain AND/OR shine!

WHAT IS THE C.A.T. TEAM?

The Competition Advisory Team, or CAT for short, is a subcommittee of the NCF-Envirothon operating committee that's responsible for overseeing and guiding the students during training, testing and the oral presentation components of the competition. This dedicated group helps to ensure fairness, consistency and equity. Who is on CAT, you ask? They are members of the operating committee, experienced volunteers, and representatives from past, current and future hosts! If you see a CAT shirt, say hi! 😊

FOODS OF NEW YORK!

The great state of New York is known for the invention of many different foods. One of the most famous (and recognizable) is the: **NEW YORK CHEESECAKE**, which was invented in the 1920s.

TODAY'S WEATHER WILL BE...

Sun and cloud, mixed with showers and a thunderstorm in the afternoon. 

HIGH: 87F (30C) HUMIDEX: 94 (34)

PHOTO RECAP OF MONDAY!

SHARE YOUR PHOTOS!

Hey students! Post your pictures or videos on social media using the hashtag #2024ncfenvironthon and your team's name!

HIGHLIGHTS FROM YESTERDAY

The hot, humid weather did not stop the students from having a VERY successful training day! While the youth were cramming their brains with knowledge, guests attended tours of Montezuma Refuge, Muranda Cheese, and the Sonnenberg Gardens. The students attended their study session under the 'big top' in the evening, but had time for a bit of fun after their training day!

FLICKR PHOTOS OF MONDAY'S ACTIVITIES

TRIVIA OF THE DAY!

What year was the very first solar panel created to power devices?

**ANSWER:
HIDDEN ON
PAGE 1**

REMINDER TO ALL!

Please remember to download the SCHED APP to stay updated on the week!

ALL THINGS NEW YORK

New York has a tremendous amount of parks, with Adirondack Park being at the top of the list! This 6 million acre forest preserve is larger than Yellowstone, Yosemite, the Grand Canyon, Glacier Park and Olympic Park - COMBINED!

AND NOW A WORD FROM OUR SPONSORS... THANK YOU!
